

Week #
Pi Day

Pi Day Fun

Date Due

Shepherd's pi

What do you get when a bunch of sheep stand in a circle?

Why should you never talk to pi?

Because they will go on-and-on forever

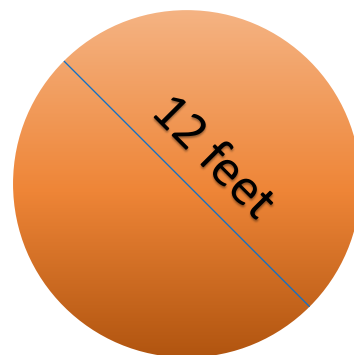

A Pi in the sky.

What happens when you eat to much pi?

You get a bigger circumference.

What do you get when you take the sun and divide by its diameter?

Farmer Logue built a circular chicken enclosure. If each adult chicken in his flock requires 4 square foot of space, how many chickens can you house?

Why doesn't anyone talk to circles?

Because there's no point!

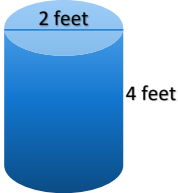

What is wrong with the Equation "pi R Squared"?

Pi are round, cakes are square.

Farmer Logue wants to put a fence around the enclosure. He wants the fence always be exactly 3 feet away from the enclosure. How much fence does he need? How many rolls of fencing should he purchase if each roll is 25 feet?

Farmer Logue has a cylindrical food storage barrel. It has a diameter of 2 feet and a height of 4 feet. What is the volume of the cylinder?

Hint: Volume equals the area of the base times the height

What are 3.14% of sailors?

What did pi say when asked if they could explain what Pi Day was again.

What is the math teacher's favorite snake?

I don't want to repeat myself.
Use this area to draw the net of the cylinder.

Pi-Rates

A Pi-thon

Why should you never argue with pi?

They are completely irrational.

Why did pi fail their driver test?

Farmer Logue's favorite color is blue. He wants to buy enough paint to color the surface of the barrel. What is the total surface area of the barrel?

Why shouldn't you let advanced math intimidate you?

It's really as easy as pi!
